About Us

At MSC, we solve our clients' big construction challenges with value-driven solutions.

Our Company

At MSC, We specialize in optimized, integrated construction services as well as concession and maintenance for projects of varying complexities. Consistently delivering on target or better, we offer our clients the proven advantages of our unique system of operational efficiencies.

Our Mission & Vision

Our Mission:

Exponent is a multi-disciplinary firm whose mission is:

- To provide clients with objective solutions for their important science, engineering, and business problems
- By attracting, developing, exciting, and rewarding exceptional people that will build shareholder value.

Our Vision:

Exponent's vision is to engage the brightest scientists and engineers to empower clients with solutions for a safe, healthy, sustainable and technologically complex world.

Why Choose Us?

VALUE ENGINEERING

Achieving and exceeding design-and-build functions at a significantly lower cost to add value to every project.

RAPID PROCUREMENT SYSTEM

Accelerating procurement from days to hours through an automated, paperless online system.

INDUSTRIALIZED BUILDING SYSTEM (IBS)

Generating shorter construction times, less waste and greater resource efficiency with advanced prefabrication systems.

MATRIX MANAGEMENT SYSTEM

Responding quickly to construction site dynamics and minimizing costly delays with lean, agile project teams.

END-TO-END INTEGRATION

Controlling quality throughout the Engineering, Procurement, Construction & Commissioning chain.

OUR PEOPLE

Developing outstanding leadership, innovation and value creation proficiencies to deliver projects of outstanding quality.

What We Do

We engaged in the field of undertaking Civil Engineering Projects

Planning & Execution

Planning for Earthwork Construction is very important. Therefore, Planning is undertaken to understand the problems and to develop courses of action.

- Understand project objectives and requirements.
- Plan the Work Perform quantity take-off Determine costs
- Soil Behavior understanding: Soil Density (wet or dry) · Soil Compaction · Consolidation · Moisture Content · Stability · Compressible Soils · Expansive Clays
- Analyzing the quantities involved, basically area, volume, height, and distances.
- Earthwork Volume Sheet, Required quantity of machines and stuff.
- According to the volume sheet analyzing, the Required quantity of workers and staff.
- After knowing all these things, then we start work.

Earthworks Services

- 
- **Infrastructure Installation**
 - **Building Platform Preparation**
 - **Site Clearing**
 - **Sub Grade Top**
 - **Road Construction**

03 Machinery & Equipments

Machinery & Equipments

| Sl. No. | Machinery & Equipment's | Quantity |
|--|----------------------------------|----------|
| 1 | Tipper or Dumper BS4 | 20 |
| 2 | CAT Motor Grader 120K2 | 2 |
| 3 | Water Tanker (20000 litre each) | 3 |
| 4 | Soil Compactor | 4 |
| 5 | Excavator(2- 220, 2-215 & 1-350) | 5 |
| 6 | Diesel Tanker | 1 |
| 7 | Dozer D80 | 2 |
| 8 | JCB 4*4 | 1 |
| Full Staff for All the Machines & Works | | |
